We all have dreams or visions of the future for Boulder Junction. It is wonderful to watch many of those dreams happen. As one improvement happens, seeds are planted for future improvements. Joanne and I enjoy the Mural on Main Street, participate in the Music on Main Street, enjoy the Flower baskets on Main Street and watch events at the Earl Sturm baseball park. These are just some of the projects that the Community Foundation has aided. We commend the Community Foundations efforts to continually review and improve the Foundation.

**John and Joanne Ader**

Excitement is building over the eagerly anticipated Phase I of the North Creek Loop Trail. Generous donation from you, our donors, has led to the town putting Phase I out for bid with an anticipated start date of June 2022. The trail will be completed from Hwys. H&K half way up to North Creek Road (the entrance of Camp Holiday). Once Phase I is underway, the town is eager to start working on Phase II. THANK YOU for making this a reality and helping enhance the Boulder Junction Trails!

**We gratefully acknowledge the donors who generously gave back to Boulder Junction through the Boulder Junction Community Foundation in 2021:**

## 2021 GRANTS AWARDED:

The **Boulder Junction Volunteer Fire Department** was awarded a grant in the amount of \$4500 for the purchase of a Thermal Imaging Camera. Thermal imaging cameras (TICs) are a type of thermographic camera used in firefighting and rescue applications, allowing firefighters to “see” through darkness and smoke on the fireground. By rendering infrared radiation as visible light, TICs allow firefighters to see areas of heat through smoke, darkness or heat-permeable barriers – spotting fires within walls, detecting overheated electrical wiring, locating hot-spots in fire debris, locating materials involved in spontaneous low-level combustions, etc. Thermal imaging cameras, which can detect the heat signature of visually-obscured victims, are helpful in aiding search-and-rescue operations in hostile environments, including those involving structure fires, helping expedite life-saving rescue operations. TICs are also useful in some outdoor rescue applications as well.

The **Boulder Junction Volunteer Fire Department** was awarded \$3488 for the purchase of cold water rescue suits and equipment. The suits protect the firefighters using current technology during cold water rescue circumstances.

The **Boulder Junction Chamber of Commerce** was awarded a grant in the amount of \$3775, helping to reel in the new mascot for the Musky Capital of the World. It was named in a contest sponsored by the Chamber, Marty the Musky. Community volunteers helped to create and install the display of the 18' fiberglass musky outside the Chamber.

**Boulder Junction UpShift/Town of Boulder Junction**, was awarded \$750 for Safety & Directional Signage for (3) bike routes on town roads.

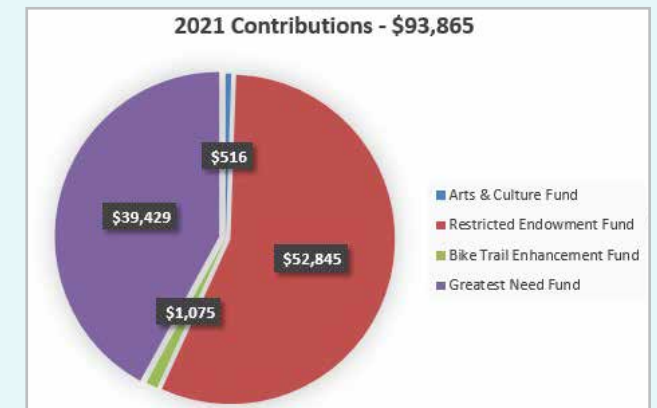

The **North Creek Loop Trail Committee/Town of Boulder Junction** was awarded a grant in the amount of \$5000. The North Creek Loop Trail Project is an expansion of the Heart of Vilas County Paved Bike Trail System, recently designated a National Recreation Trail. The project, managed by the Town of Boulder Junction, will add approximately 3.3-miles of paved trail, complete the 14-mile North Creek Loop Trail, and connect to the Heart of Vilas County Paved Bike Trail System. The new trail will run from Highway H and K along the east side of Highway H going south to North Creek Road. It will connect two state forest campgrounds and one private campground, providing a safe way for campers, visitors and residents to come into town by bicycle.

**Camp Jorn YMCA** was awarded a \$4000 grant toward the construction of a new Health Lodge and a Day Camp Pavilion & Village. The Health Lodge will be for everyone, but the Pavilion & Village will provide Day Camp participants, ages 5-14, with a bit of space for each group to call their own. The Summer Day Camp at Camp Jorn in Manitowish Waters serves area children, including those from Boulder Junction.
